---

Dear Denise Simmons,

I have lived in Cambridge for fifty years and I've seen the tradition of Cantabrigians taking a stand against injustices world wide. I myself have long fought for Women's Rights, especially as one of the founders of Our Bodies, Ourselves. I now urge you to take the moral stand again and support Massachusetts Against Hewlett Packard. Hewlett Packard must stop their support of policies that deny rights to Palestinians as well as immigrants. I say this as a Jew who believes that Cambridge should be on the right side of this issue.
